

January 11, 2011

Parents and Guardians:

This letter is to inform you of new immunization requirements that will affect your student for the next school year. I wanted to make you aware of these new requirements and give you ample time to get your student vaccinated. The new requirements are as follows:

6th grade in fall of 2011 Need 1 Tdap and a second varicella

12th grade in fall of 2011 Need 1 Tdap and a second varicella

Once your student receives their updated immunizations please make sure to get a copy to the school office that includes your students name, vaccines received and the date that vaccines were received. Turn these copies into the school as soon as vaccines are received. You do not need to wait until fall. I have attached a copy of the Student Immunization Record for your use if you would prefer.

Wisconsin State Statute 252.04 requires parents to have their children vaccinated or claim a waiver.

Please review the attached immunization chart to see the full list of required vaccines.

Please contact me if you have any questions. Thank you for your help.
